EDUCATION

Bachelor of Science in Computer Science   Aug. 2021 – May 2025
Arizona State University; GPA: 4.00/4.00   *Tempe, AZ*

EXPERIENCE

Undergraduate Teaching Assistant - CSE120: Digital Design   Jan 2023 – Present
Arizona State University   *Tempe, AZ*
- Duties involve, engaging with students during class, addressing queries to enhance their understanding of course materials.
- Collaborating with Professor Steven Millman for comprehensive review sessions, reinforcing key concepts.
- Facilitating student discussions on online platforms like ED discussions and Discord, providing timely assistance.
- Assessing and correcting students quiz submissions, offering guidance for improvement and ensuring understanding.

Undergraduate Teaching Assistant - CSE 360: Software Engineering   Jan 2024 – Present
Arizona State University   *Tempe, AZ*
- Conducted one-on-one office hours, assisting students with coding issues in group projects.
- Contributed to course development through collaboration on tutorials, pop quizzes, and assignment rubrics.
- Guided students in navigating software engineering concepts, ensuring clarity and understanding.

Undergraduate Teaching Assistant - CSE 365: Cybersecurity   Jan 2024 – Present
Arizona State University   *Tempe, AZ*
- Led engaging in-person recitations on Python scripts and challenging cybersecurity coding scenarios.
- Offered continuous support via Discord, addressing student queries and providing assistance outside regular class hours.
- Facilitated dynamic recitation sessions, fostering active participation and deepening comprehension of cybersecurity principles.

PROJECTS

Sunrise Project | *ReactJS, Figma, Mircrosoft 365, Google. Docs, Slides, Sheets*   Jan 2022 – Present
- Lead the development of a mental health mobile app for the HOPI tribe in collaboration with an EPICS team and Community Partners at NAU and ASU.
- Held and efficiently perfomed the role of team documentation head during the Fall 2022 semester.
- Conducted research on React Native, Flutter, and Figma.
- Managed comprehensive documentation, presentations, and progress reports.

EffortLoggerV2 | IDE: *Eclipse;* Languages: *Java, JavaFX*   Aug 2023 – Present
- Collaborated with a team to enhance and refine EffortLoggerV1, addressing customer needs and improving functionality.
- Lead the development of EffortLoggerV2, integrating new enhancements and features based on meticulous analysis and user feedback.

BrickBreaker Clone | *P5*JS*   Aug 2021 – Dec 2021
- Collaborated on a prototype application featuring four games, contributing the development of brick breaker clone using P5.js and JavaScript.
- Developed a user-friendly interface, allowing players to break as many bricks as possible within a two-minute timeframe.

RESEARCH

Future Solutions Research | *GCSP(Grand Challenge Scholars Program)*   Aug 2021 – Dec 2021
- Collaborated on developing a research solution to store liquid hydrogen-based fuel onboard aircraft, focusing on sustainability and reducing carbon emissions.
- Constructed a prototype fuel tank capable of holding hydrogen-based fuels.

Cloud Computing Security Research | *GCSP(Grand Challenge Scholars Program)*   Aug 2021 – Dec 2021
- Authored a research paper on security concerns related to cloud computing.
- Investigated the use of cloud computing for data storage and proposed solutions to address data leak issues.

TECHNICAL SKILLS

Languages: Java, JavaFX, C/C++, Scheme, SQL, Bash
Frameworks: ReactJS, Figma.
Developer Tools: GitHub, VS Code, Dr. Racket, IntelliJ, Eclipse, P5*JS, etc.
Other Tools: Microsoft Office 365, Google Slides, Google Docs, Google Sheets, etc.
